Comment App

I was build a feedback application that has the given following required functionalities,

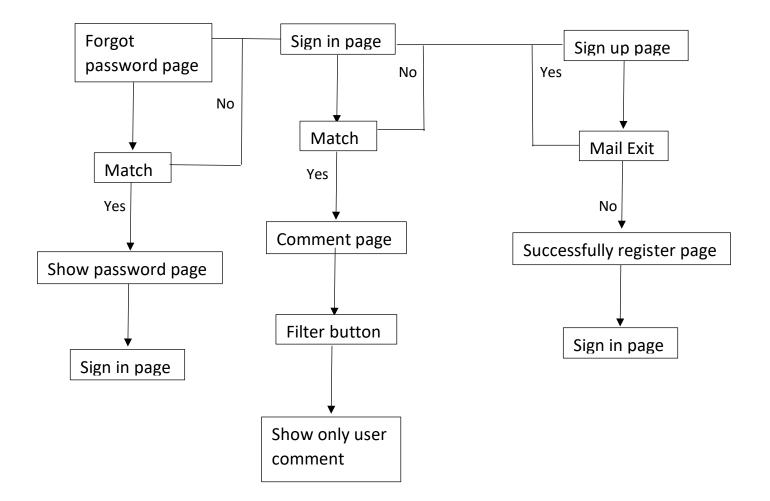

Then, What are the sources I was using.

- For frontend
 - > Html files
 - > Jsp files (Java Server Pages)
- For Backend
 - Java Servlets and Java Dao classes
 - MySQL Database engine
- For Web-server
 - Apache Tomcat

Then, What are the files and names.

- Webapp/WEB-INF
 - ≻ Web.xml
 - Sign In.html
 - Sign Up.html
 - Successfully register.jsp
 - Forgot Password.html
 - Show password.jsp
 - ➤ comment.jsp
 - Show comments.jsp
 - Single comment.jsp
- src/main/java
 - SigninServlet.java
 - SignupServlet.java
 - ForgotServlet.java
 - CommentServlet.java
 - LoginDao.java
 - LoginData.java

Flow-chart:

Sign-in:

💓 Sign in	× +
\leftrightarrow \rightarrow C (i) http://local.	ost:8080/CommentApp/Sign%20In.html
